(54) Title: A SYSTEM AND METHOD FOR THE PROVISION OF INFORMATION WITHIN A PREDETERMINED LOCALITY

(57) Abstract: The present invention relates to a system and method for the provision of information to a small computing device, such as a palm top computer or a mobile phone, within a predetermined locality. The predetermined locality is served by a server, and the small computing device is provided with a browser. The server provides information relating to a product and/or a service available at the locality for display on the display of the small computer.
